The country is becoming agitated over the statement that religion is losing ground. This results in countless discussions until the agitation runs its course, and still religion flourishes. Great Britain's Population.

No Fashion: Many Styles.

As if to prove conclusively the infinite number of ways in which a comparatively simple thing may be done, note the various fashions in which men hold their cigars in their mouths. Every man seems to work out his own way of smoking a cigar, evolving it slowly from the first time, when he placed it carefully in the middle of his mouth and blew the smoke out as if he were whistling. There is no accepted conventional standard; no fashion, but many styles.-New York Post.

Consolation and Comfort, Who is it that does not wish to be out in the open air or alive in some field of sport, whether it be with the bat, rod or gun; whether we go coasting over the hills and vales on the wheel or sailing over rough waves or into serene coves, it is all sport, and the springing muscles seem to need it. It is bound to happen that some mishap will occur. Thus it is that we have sprains in abundance. Light sprains, sprains that cripple, sprains that give great pain, sprains that rob us of sleep, but sportsmen of all kinds have come to know that there is nothing better than the old reliable St. Jacob's Oil. Have it with you for use; you may rely on its cure of the worst sprain and restoration to the com-

forts of life. Thanked God for Mercy. An ambitious Arab from Mecca, named Halabi, appropriated the title of Mohomet, or Mohammed, and had to prove his "predicted Messiaship" by supernatural means, the Arabs being serious doubters. He accordingly commanded Mount Safa to come to him, and when it stirred not at his bidding exclaimed: "God is merciful. Had the mountain obeyed my words it would have fallen on us to our destruction. I will therefore go to the mountain and thank God that He had mercy on #

Work of the Human Heart. \* A person who has lived seventy years has had pass through his heart about 675,920 tons of blood, the whole blood in the body passing through the heart in about 32 beats. The heart beats on an average 70 times a minute, or 36,792,000 times in the course of a year, so that the heart of an ordinary man, 80 years of age, has beaten 3,000,000,000 times. The heart beats 10 strokes a minute less when one is lying down than when one is in an upright position.

Chiropodist's Busiest Season, "Summer," says a chiropodist, "is always my busiest time, and the hotter it is the more I am rushed with business. I have twice as many assistants in summer as in winter. People who suffer at all with their feet suffer intensely in hot weather, Hot pavements, you know, are excruciating to tender feet. Badly fitting shoes, too, are responsible for much suffering, and a shoe that is too loose is just as bad as one that is too tight.'

Starts Upon Receiving News of The Tragedy.

# SPECIAL TRAIN TO BEDSIDE.

Burlington, Vt., Sept. 9,-The first news of the attempted assassination of President McKinley reached Vice Presdent Roosevelt at Isle La Motte when the vice president was informed by telephone that there was a rumor that the president had been shot. It was confirmed by another message a moment later. The vice president seemed stunned by the news, put his hand to his head, then exclaimed:

"My God." Those around him were immediately informed of the tragedy and it was decided to announce it to the company of a thousand people who had gathered to hear Colonel Roosevelt speak at the annual outing of the Vermont Fish and game league.

Senator Proctor made the announce ment, and many persons in the audience burst into tears. A later bulletin was received stating that the president was resting quietly, and that there were chances for his recovery. "Good," exclaimed the vice president, and his face lighted up. He showed his pleas ure by eagerly announcing the good news to the assembly.

The vice president then left immediately on the yacht Elfrida, owned by W. Seward Webb, and came to this city as quickly as possible, having directed that all messages should be held for him here. The yacht was to have gone to Arrow Point, where a special train was waiting for the vice president, but the train was sent on to Burlington and was there when the yacht came into the harbor. President Clement of the Rutland railroad placed the train at the disposal of the vice president and made arrangements to take him on it to the scene of the tragedy. Colonel Roosevelt was asked at the wharf for a statement for publication and said:

"I am so inexpressibly grieved, shocked and horrified that I can say nothing."

He boarded the train and left for Buffalo.

Washington,-Presiding Elder Naylor of the Washington district said: "I have ever been loyal to the law and have ever contended for its strict enforcement. I must say that the affair of 4 o'clock Friday has almost converted me into any advocate of lynch law."
